Bug2Hunt › BUG-6 POST /bugs/{bug_report_id}/upvote returns 500 Internal Server Error on duplicate upvotes

Done

POST /bugs/{bug_report_id}/upvote returns 500 Internal Server Error on duplicate upvotes

- **Steps to Reproduce:**
  1. Open psql and run: SELECT user_id, bug_report_id FROM upvotes LIMIT 1;
  2. Copy both UUIDs
  3. Navigate to http://127.0.0.1:8000/docs
  4. Open POST /bugs/{bug_report_id}/upvote
  5. Enter the copied user_id and bug_report_id
  6. Click Execute
- **Expected:** API returns 400 error, duplicate upvote is not recorded in database
- **Actual:** 500 Internal Server Error
- **Status:** Done
